

H1 2021
CO₂-performanceladder

Objective

By 2023, FinCo Fuel Group aims to emit 30% less CO₂ than in 2019.

Scope 1: **5.024 ton**
Scope 2: **9,3 ton**
Business travel: **3 ton**

Emissions kg CO₂/m³ per transported product:

2019 > **5,1** | 2020 > **5,0** | H1 2021 > **3,86**

In 2020 FinCo Fuel has further sharpened its ambitions,

Part of this is to further reduce the CO₂ footprint on both products and processes through the reduction system in accordance with the CO₂ Performance Ladder 3.1 with attention to registration and implementation.

How we reduce CO₂

- New energy efficient office
- Time charters on ChangeTL
- Re-evaluate loading locations
- Depot lighting columns to be fitted with LED
- Depot switches to 100% Dutch green power and installation of movement sensors
- Biogas at Groningen terminal
- Encourage use of public transport
- Compensate for air travel via KLM Biofuel Programme
- Use biological lubricants
- Install solar panels where possible
- Introduce paperless office
- Make office restaurant sustainable

Our emissions are equivalent to

Gas and electricity consumption of 1.159 households for a whole year

Driving around the earth 693 times by car

3.125 return trips by plane from Amsterdam to New York

Growing 270.185 trees for a whole year

Initiatives

Finco Fuel Group is affiliated to Nederland CO₂ Neutraal, enabling the exchange of knowledge and experience with other companies about sustainability. Dalergy and Gulf are also members of Lean & Green.

What can you do?

- CO₂ conscious driving
- Using the tyre pump
- Working paperless as much as possible
- Separating waste
- Come up with ideas how we can save even more CO₂
